III. BASIC PREMISE

26. This is a negligence case which arises from a motor vehicle collision that occurred on or about June 20, 2021, at the intersection of North College Avenue and East Lafayette Boulevard, Fayetteville, Arkansas.

IV. FACTS

27. Plaintiffs re-allege those matters as set forth in paragraphs 1-26 above, as if set forth fully herein.

28. Defendant Werner hauls general freight, metals, lumber, building materials, machinery and large objects, fresh produce, liquids/gases, grains, feed for animals, chemicals, dry bulk commodities, refrigerated food, beverages, paper products and construction items and/or freight across the cities and/or roadways of the United States, including, but not limited to roadways such as North College Ave., located in Fayetteville, Arkansas.

29. Defendant Werner has a large fleet of at least 9,734 tractors and employs and/or contracts with at least 9,689 drivers. In the calendar year 2019 Werner reported that its fleet drove 935,052,779 miles across the United States, including the state of Arkansas. **See SAFER**

Report attached hereto as Exhibit A.

30. Taking information from a 24-month record that ended on May 27, 2022, Werner had a total of more than 1,570 unsafe driving violations and at least 48 driver fitness violations for multiple reasons, including, but not limited to: lack of vehicle maintenance, unsafe driving, hours of service violations and driver fitness disqualifications. **See SMS Reports attached hereto as Exhibit C & D.**

31. The Federal Motor Carrier Safety Administration (“FMCSA”) uses a Safety Measurement System (“SMS”) to measure and gauge the safety of trucking carriers in the United States and reports data collected within the previous two years.

32. According to the FMCSA’s SMS, in the two years before the filing of this Complaint, motor carrier enforcement officers inspecting drivers and tractor-trailers found:

- (a.) 364 violations for failure to obey traffic control devices;
- (b.) 318 lane restriction violations;
- (c.) 377 violations for speeding from 6-14 miles per hour over the speed limit;
- (d.) 108 violations for using a hand-held mobile telephone while operating a CMV;
- (e.) 33 improper lane change violations;
- (f.) 32 violations for failure to maintain lane;
- (g.) 16 violations for inattentive driving;
- (h.) 9 violations for failure to yield the right-of-way; and
- (I.) 5 violations for improper turns.

See SMS Reports attached hereto as Exhibit C & D.

33. Defendant Werner, as employer and/or contractor for Defendant Bell, controlled training for Bell on safety and driving standards, the Federal Motor Carrier Act Safety Regulations, its internal safety and driving standards, applicable state and local laws and the rules of the road.

34. On, or about June 20, 2021, Defendant Bell was directed by Defendant Werner to deliver a load of goods and/or materials to a Dollar General Store located in Fayetteville, Arkansas.

35. Werner controlled, managed, and/or supervised the manner, method and/or procedure(s) for how the load would be transported, including, the date and time the transport was to be picked up and delivered; the route to be taken; payment restrictions; the bill of Lading and extensive driving instructions.

36. Defendants Werner and Bell were engaged in a joint venture with an equal right to control the venture and an agreement among them to participate in a common enterprise for the purpose of commercially transporting freight in interstate commerce and were acting within the course and scope of this venture in furthering the business duties of each other and are liable for the negligence of each other.

37. North College Avenue is a busy four lane roadway in Fayetteville city limits with two (2) lanes each direction with a common turning lane in the middle lane. E. Lafayette Street in Fayetteville is a city street crossing College Avenue and leads into a residential neighborhood as you travel the eastern route.

38. At the intersection of North College Avenue and East Lafayette Street, a right turn from College Avenue leads to a single lane of traffic heading eastbound on Lafayette.

39. On or about June 20, 2021, Defendant Bell was traveling eastbound on North College Avenue in the left-hand lane operating a 2020 Freightliner tractor pulling a trailer placarded with “Dollar General.”

40. Upon the Plaintiffs' information and belief, the 2020 Freightliner and trailer were owned and /or leased to and/or by Defendant Werner.

41. The intersection of College Avenue and Lafayette Street in Fayetteville is controlled by traffic signals that grant the right of way of travel to motorists navigating the two roadways.

42. While College Avenue has a turn lane and is five (5) lanes wide, East Lafayette Street heading east is a two (2) lane roadway with one lane heading east, one west and, at the intersection, a turn lane for traffic to make a left hand turn onto College when granted the right of way by the controlling traffic light.

43. On or about June 20, 2021, at approximately 10:50 AM, Plaintiff Benjamin Ellis Maurer, a minor at the time, and a passenger were riding his 2012 Moto Ballistic moped in the right-hand lane of North College Avenue approaching the intersection of North College Avenue and Lafayette Street.

44. Separate Defendant Bell was traveling northbound in the left lane and in front of Plaintiff on North College Avenue.

45. The traffic signal for northbound traffic on College Avenue gave the right-of-way to travel through the intersection to the northbound traffic as Plaintiff Ellis approached the intersection. The traffic signal at the intersection is one that does not allow for a right turn arrow and both northbound lanes of traffic have solid green lights to grant the ability to go through the intersection.

46. As Plaintiff Ellis approached the intersection with the green light to proceed through the intersection, suddenly and without warning, Separate Defendant Bell made a right turn from the left lane of North College Avenue onto East Lafayette Boulevard.

47. The careless, reckless and/or negligent act by Defendant Bell caused the right lane of traffic on College Avenue to be completely blocked and unable to go through the green light.

48. Defendant Bell, while attempting to make the careless, reckless and/or negligent improper right-hand turn, cut the turn in such a manner as to drive the tractor and/or trailer off of the roadway and onto the public sideway running parallel to Lafayette.

49. Plaintiff Ellis attempted to come to a stop at the right curb line of North College Avenue in an attempt to avoid a collision with the improperly turning tractor and trailer, however, his avoidance maneuver was unsuccessful.

50. Plaintiff Ellis' moped struck the right side of the trailer in the right lane of traffic heading North on College Avenue.

51. The speed and force of Defendant Bell's actions pinned Plaintiff Ellis' moped under the rear axles of the trailer, causing the moped to be drug some distance down Lafayette, with Plaintiff Ellis in tow.

52. Despite his best efforts to avoid the tractor and trailer, Plaintiff Ellis was struck by the trailer of Defendants' truck and was subsequently pinned under the rear wheels on the right side of the trailer.

53. As a result of the collision, Plaintiff Ellis sustained severe personal injuries and damages to his person and Plaintiff Maurer incurred significant medical bills.

USE OF SMS DATA/INFORMATION

FAST Act of 2015:

Readers should not draw conclusions about a carrier's overall safety condition simply based on the data displayed in this system. Unless a motor carrier has received an UNSATISFACTORY safety rating under part 385 of title 49, Code of Federal Regulations, or has otherwise been ordered to discontinue operations by the Federal Motor Carrier Safety Administration, it is authorized to operate on the Nation's roadways.

Safety Measurement System:

The data in the Safety Measurement System (SMS) is performance data used by the Agency and Enforcement Community. A  symbol, based on that data, indicates that FMCSA may prioritize a motor carrier for further monitoring.

The  symbol is not intended to imply any federal safety rating of the carrier pursuant to 49 USC 31144. Readers should not draw conclusions about a carrier's overall safety condition simply based on the data displayed in this system. Unless a motor carrier in the SMS has received an UNSATISFACTORY safety rating pursuant to 49 CFR Part 385, or has otherwise been ordered to discontinue operations by the FMCSA, it is authorized to operate on the nation's roadways.

Motor carrier safety ratings are available at <http://safer.fmcsa.dot.gov> and motor carrier licensing and insurance status are available at <http://li-public.fmcsa.dot.gov/>.

USE OF SMS DATA/INFORMATION

FAST Act of 2015:

Readers should not draw conclusions about a carrier's overall safety condition simply based on the data displayed in this system. Unless a motor carrier has received an UNSATISFACTORY safety rating under part 385 of title 49, Code of Federal Regulations, or has otherwise been ordered to discontinue operations by the Federal Motor Carrier Safety Administration, it is authorized to operate on the Nation's roadways.

Safety Measurement System:

The data in the Safety Measurement System (SMS) is performance data used by the Agency and Enforcement Community. A  symbol, based on that data, indicates that FMCSA may prioritize a motor carrier for further monitoring.

The  symbol is not intended to imply any federal safety rating of the carrier pursuant to 49 USC 31144. Readers should not draw conclusions about a carrier's overall safety condition simply based on the data displayed in this system. Unless a motor carrier in the SMS has received an UNSATISFACTORY safety rating pursuant to 49 CFR Part 385, or has otherwise been ordered to discontinue operations by the FMCSA, it is authorized to operate on the nation's roadways.

Motor carrier safety ratings are available at <http://safer.fmcsa.dot.gov> and motor carrier licensing and insurance status are available at <http://li-public.fmcsa.dot.gov/>.
